

Information on Player Selection for the New Mexico ODP

Soon, we will be posting the initial selections for the 2016 – 2017 ODP Pools.

Regarding these selections, it is important to remember that:

- 1) Attending tryouts is not the only way to be identified and invited into the ODP pool. The NMYSA coaching staff will be out scouting players at tournaments and league games, we will be talking to coaches about players and we always welcome player recommendations from coaches and club directors.
- 2) Players may be added to these pools at any time. We will consistently update the list that is posted to our website and contact players who have been selected for participation.

The process of tryouts, player identification and pool training is to select a New Mexico State ODP Team that will represent the NMYSA at the ODP Regional Championship Tournament in January. From ODP participation, players may also be identified for Regional, National and International ODP opportunities; as well as seen by and promoted to college coaches.

From the initial Pool training sessions, players will be selected into the final ODP Pool. This smaller pool will meet again for training sessions and from those sessions; the final ODP Team will be selected.

To stay up-to-date with all ODP details, please visit the NMYSA's website (www.nmysa.net) and the ODP page (<http://www.nmysa.net/LeftNav/odp.htm>) for the most current information.
