Re: COVID-19 Coronavirus – New Mexico Youth Soccer Association Update

Important Update

Based on the latest information from our national governing bodies, the CDC, Whitehouse and New Mexico State and City governments, **effective immediately, New Mexico Youth Soccer Association is suspending all soccer activity including trainings, practices, league play and all sanctioned travel until further notice.** Please note, the NMYSA liability and Secondary Accident Insurance does not cover unsanctioned activities.

It is important that we remain united for the future sustainability of youth soccer in our local areas. We are hopeful that these recent actions will lessen the overall length of postponements and allow us to readily move forward once the restrictions are lifted. We sincerely appreciate your cooperation in this matter and will continue to do our best for the soccer communities we serve. Please continue to check for COVID-19 updates on our website at www.nmysa.net. You may also contact our office at the number or emails below.
